Bordeaux | +33760915127 | matiasagelvis@gmail.com | <https://www.matiasagelvis.com> | <https://www.linkedin.com/in/matias-agelvis>

EDUCATION

Universidad de los Andes, Mérida
Bachelor's, Physics

October 2011 - October 2018
GPA: 81

PROFESSIONAL EXPERIENCE

Self-Employed

Freelance Web Developer

Remote

February 2023 - Present

- Designed and developed visually appealing and responsive static websites for clients to establish and enhance their online presence.
- Leveraged a wide range of technologies, including HTML, CSS, JavaScript, and React, to create custom web solutions tailored to clients' specific needs.
- Collaborated closely with clients to understand their branding, messaging, and business objectives, resulting in websites that effectively conveyed their unique identity and achieved their goals.
- Implemented continuous integration (CI) processes to automate the build, testing, and deployment of web applications, ensuring code quality and rapid delivery of updates.
- Provided ongoing technical support and troubleshooting to ensure the long-term functionality and performance of clients' websites.

RENYT Tech

Front End Developer

Remote

March 2022 - November 2022

- Developed and implemented a responsive and lightweight UI for a blog
- Worked closely with the design team to create a UI that was both visually appealing and easy to use
- Optimized the UI for performance and accessibility
- Received positive feedback from users on the UI

Self-Employed

Freelance Web Developer

Remote

July 2019 - February 2022

- Designed and developed visually appealing and responsive static websites for clients to establish and enhance their online presence.
- Leveraged a wide range of technologies, including HTML, CSS, JavaScript, and React, to create custom web solutions tailored to clients' specific needs.
- Collaborated closely with clients to understand their branding, messaging, and business objectives, resulting in websites that effectively conveyed their unique identity and achieved their goals.
- Implemented continuous integration (CI) processes to automate the build, testing, and deployment of web applications, ensuring code quality and rapid delivery of updates.
- Provided ongoing technical support and troubleshooting to ensure the long-term functionality and performance of clients' websites.

Universidad de Los Andes

Research Assistant

Merida, Mérida, Venezuela

July 2017 - August 2018

- Collaborated with Dr. Mario Cosenza on a year-long research project focused on non-linear dynamics and chaos theory.
- Conducted extensive literature reviews to understand existing research in the field and identify gaps.
- Assisted in designing and conducting simulations and data analysis in C++.
- Contributed to the development of mathematical models and algorithms to analyze chaotic systems.
